Update: SAC air and artillery attacks kill 35 civilians, injure 55 in Hsipaw, Mogok, Kyaukme, Nawngkhio, Kutkhai, threatening Chinese pipelines

Between July 15 and August 4, 2025, SAC airstrikes and shelling killed thirty-five civilians and injured fifty-five others, damaging over 60 buildings -- including three hotels, two Buddhist temples, two schools and a clinic -- in areas of Hsipaw, Mogok, Kyaukme, Nawngkhio and Kutkhai townships under control of the Ta'ang National Liberation Army (TNLA) and Myanmar National Democratic Alliance Army (MNDAA) since 2024.

SAC air and artillery attacks in Kyaukme and Hsipaw townships were carried out dangerously close to China's oil and gas pipelines, renewing fears of possible pipeline explosion. In both townships, bombs exploded near pipeline control stations, where the pipeline infrastructure comes above ground, making it more vulnerable to rupture and ignition of fuel.

In Kyaukme the attacks near the pipelines were carried out by SAC troops based at Goke Hteik Bridge, who fired shells and launched drones eastward directly along the pipelines, and over a pipeline control station. Between July 25 and 31, more than 17 artillery shells and 3 drone bombs landed in Pang Pao, Pang Tueng and Nawng Ping Long villages, killing five civilians, including a Buddhist novice, injuring five other young novices, and damaging two temples, including one where IDPs were sheltering.
